

PRODUCTION PARTNER BRIEFING / 2026

STOP FUNDING PRODUCT DEVELOPMENT

Why pour thousands of euros into specialist CAD, historical research, prototypes, test prints and launch content before your first sale? A comparatively small entry fee unlocks a large library of ready-to-produce Faustus Models products with an established sales history.

COMMERCIAL OVERVIEW

100 DESIGNS

A broad eligible product library

€1 000

ENTRY

Instead of funding the development pipeline

READY TO

PRODUCE

Researched, tested and commercially proven

PAY AS YOU

SELL

20% commission follows actual Net Sales

THE SLOW AND EXPENSIVE ROUTE

THE FAUSTUS MODELS PARTNER ROUTE

SKIP THE COST KEEP THE PRODUCT RANGE

You are not paying for a folder of files. You are buying access to the expensive work that has already been

BUILD EVERY SKU FROM ZERO

Carry the cost, time and risk before you know whether the market wants the result.

- × Fund specialist CAD and historical reference research
- × Lose months or years to prototypes, corrections and test prints
- × Create every render, description, SKU and launch asset yourself
- × Bet development money on products with untested demand

completed: a researched, production-ready product pipeline with a real commercial track record.

- + Launch a broad catalog instead of waiting for one product at a time
- + Use existing market validation to reduce product-selection risk
- + Receive official SKUs, available marketing assets and co-branding
- + Turn production capacity into sellable range depth immediately

€1,000 entry

thousands in product development

+

commission only when sales happen

THE SOURCE BEHIND THE PRODUCTS

BUILT ON EVIDENCE MOST COMPANIES CANNOT ACCESS

Faustus Models draws on one of the world's largest collections of 3D scans of original historical vehicle parts, supported by a network of excellent researchers and engineers. This foundation turns rare physical reference, specialist knowledge and engineering validation into accurate, production-ready products.

PRIMARY SOURCE DATA

Real components captured in three dimensions—not guesswork based only on photographs.

SPECIALIST NETWORK

Historical research and engineering expertise applied before a product reaches the partner library.

START NARROW OR SKIP STRAIGHT TO RANGE DEPTH

License a few selected products with a fixed fee, or use the commission model to unlock a broad catalog without paying the product-development cost of building it yourself.

MODEL A / SELECTED SKUS

INDIVIDUAL PRODUCTION LICENSE

Best for focused ranges, market testing or manufacturers who only need a defined selection of products.

12 MONTHS

**STL
PRICE ×
15**

Annual
production
license

60 MONTHS

**STL
PRICE ×
0**

Five-year
production
license

- + No commission on physical product sales
- + License is limited to the contracted SKUs
- + Mandatory designer attribution and packaging rules
- + Physical production and commercial sale during the term

MODEL B / BROAD PORTFOLIO

LIBRARY MODEL

COMMISSION BASED LIBRARY LICENSE

The high-leverage offer: approved professional partners get a deep, sellable range without financing years of design and development first.

INITIAL
ONBOARDING

€1 000

One-time, non-
refundable security fee

REVENUE SHARE

20

Of Net Sales from
licensed products

- + Immediate range depth from a dated eligible-library snapshot
- + No fixed limit on physical units during the active term
- + Quarterly SKU-level reporting and commission settlement
- + Partner badge, available renders, copy and basic production support
- + Eligibility and final scope are confirmed individually

COMMISSION MODEL / AFTER YEAR ONE

THREE CLEAR RENEWAL PATHS

The initial security fee is not charged again for an uninterrupted renewal. The 20% commission continues throughout every active commission-license term.

Base renewal

NO NEW FEE

Continue for another 12 months with the same original library snapshot.

Library renewal

€250

Start the renewed term with an updated snapshot of the then-eligible library.

Dynamic renewal

€500

Receive eligible new releases throughout the renewed 12-month term.

02 / COMMISSION BASIS

NET SALES WITHOUT AMBIGUITY

The model stays aligned: the partner avoids the heavy upfront development bill, and Faustus Models participates only when licensed products actually sell.

QUARTERLY COMMISSION

**NET SALES
× 20**

Example: a licensed item sold for €30 net creates a €6 commission.

VAT excluded

Tax is not part of Net Sales.

Shipping excluded

Where separately charged to the customer.

Adjustments deducted

Direct discounts, refunds, returns and cancellations.

Operating costs not deducted

Resin, labour, packaging, ads, platform and payment fees remain partner costs.

03 / COMMERCIAL FREEDOM

You receive the commercial freedom to build the licensed physical range around your own market, customers and production strengths.

YOUR MARKET YOUR PRICES YOUR GROWTH

• YOU CONTROL

Your own lawful resale prices and commercial strategy.

Your production quantities, with no fixed unit cap during the active commission-license term.

Your sales channels, target customers and local market positioning.

Your own internal product codes alongside the official Faustus Models SKU.

Machine-specific supports, rafts and minor printability adjustments.

• WE SUPPLY

A deep catalog of researched, tested and production-ready products.

Official Faustus Models SKUs and a dated eligible-library snapshot.

Available renders, reference photographs and product descriptions.

“Under License” artwork and Official Production Partner positioning.

Basic production guidance so you can move from access to launch quickly.

SIMPLE TO START SERIOUS IN OPERATION

Go from approved partner to a broad launch catalog in days, not from research brief to first product in months. Security, brand and reporting obligations remain contractually defined.

01

Scope and approval

Confirm the license model, company details, target market and eligible product scope.

02

Production agreement

Both parties sign the definitive agreement. The signed contract always controls over this overview.

03

Activation

Pay the applicable license or onboarding fee. Files and partner materials are released after activation.

04

Launch and co-brand

Prepare listings and packaging with the required “Produced under license” attribution.

05

Report each quarter

Commission partners report quantity, Net Sales and commission per official Faustus Models SKU.

GO TO MARKET WITH RANGE DEPTH

Instead of waiting for an internal development pipeline to produce one SKU after another, convert existing production capacity into a broad physical product range.

100

Eligible designs can create immediate range depth from the start.

OWN

You determine your lawful retail prices and commercial strategy.

NO CAP

No fixed limit on physical units during an active commission-license term.

OFFICIAL

Present your business as an Official Faustus Models Production Partner.

SEE THE MODEL IN PRACTICE

Two transparent examples show how the license figures are calculated. Currency, tax treatment and definitive terms follow the signed agreement and invoice.

INDIVIDUAL PRODUCT LICENSE

Example based on a public digital STL price of €19.99.

STL PRICE	×	12 MONTHS
€19.99	15	€299.85

STL PRICE	×	60 MONTHS
€19.99	40	€799.60

One-time production-license fee for one selected product and the stated term.

QUARTERLY COMMISSION

Example based on €30 Net Sales per unit and 25 units sold.

NET SALES / UNIT	×	QUARTERLY NET SALES
€30	25	€750

€750 × 20% COMMISSION

€150 due

The commission follows actual reported Net Sales of licensed Faustus Models products.

BEFORE YOU APPLY

The essentials most production partners need before moving to the definitive agreement.

Can we determine our own retail prices?

Yes. The licensee independently determines its resale prices and commercial strategy. For commission licenses, the 20% share is calculated from the Net Sales actually achieved.

Does library access include every future release?

No. The initial commission license includes a dated snapshot of the eligible portfolio. At renewal, you may retain that snapshot, purchase a €250 Library Renewal for an updated snapshot, or choose the €500 Dynamic Renewal for eligible releases throughout the renewed term.

How are files delivered?

Normally through a personal, non-transferable 100% access code on Cults3D or an equivalent platform selected by Faustus Models. Only the contracted eligible products may be obtained.

What marketing material is included?

Depending on availability and license scope: product renders, reference photographs, existing descriptions, “Under License” artwork and basic use guidance. Commission partners may use the “Official Faustus Models Production Partner” designation during an active license term.

How is VAT handled?

Official invoices are issued by RT-Diorama / Faustus Models. VAT treatment depends on the parties' locations and valid business tax details. For qualifying intra-EU B2B services, reverse charge may apply. The invoice and signed agreement are authoritative.

Is this document the contract?

No. This is a concise commercial overview. Every license requires a signed production agreement defining the exact product scope, fees, reporting, data protection, remedies, governing law and dispute procedure. If anything conflicts, the signed agreement prevails.

What use of the digital files is prohibited?

The files, access codes and derivatives may not be shared, sold, published, transferred or digitally distributed. They may not be uploaded to public or third-party AI, repair, conversion, slicing or manufacturing services. Subcontractors, outside print farms and unauthorized personnel require prior written approval. The license covers physical production only; all copyrights and source-file ownership remain with Faustus Models.

What happens when the license ends?

Production and sales stop unless a written renewal or inventory arrangement exists. Digital assets must be permanently deleted from workstations, servers, cloud storage, removable media, slicers, backups and production queues—normally within 48 hours—followed by written confirmation when required.

How are leaks and serious security breaches handled?

A suspected loss, leak or unauthorized access must normally be reported within 12 hours. The definitive agreement provides audit, takedown and injunctive-relief rights. Depending on the breach, contractual penalties may include €25,000 for unauthorized digital transfer and €50,000 for a public or material library leak, without limiting further remedies where legally available. Exact remedies always follow the signed agreement.

PROFESSIONAL PRODUCTION PARTNERSHIPS

READY TO BUILD A RANGE

Stop buying development hours one product at a time. Tell us where you operate, how you manufacture, your principal sales channels and whether you want selected SKUs or the high-leverage library model.
